Register for RICA now!
 RICA is a new law that requires every SIM card to be registered, whether it's in your phone or modem. It's free, and it's easy, because we'll do it for you! Just follow these two steps...

- Grab your green barcoded ID book (A temporary ID or passport would also suffice). If you are not a South African citizen, you must present your passport.
- A recent bill that shows your address (This can be a bank statement, municipal bill no older than three months or if you don't have a formal address, give us the address of a church or school in your area). Register your SIM card at any one of our stores nationwide.

We'll do the rest!
 Remember, you have until 1 December 2010 to register. If you don't, your SIM card will be blocked.
